

ezMobile™

CUSTOM MOBILE APPS

Communities are like fingerprints - no two are just alike. So what is it that makes yours feel like home? The answer is connection. How can we in K-12 Education help cultivate the kind of genuine, personal connections that turn big cities and small towns into hometowns? Build a custom app with ezTask and create a place where connection happens and community comes to life.

COMMUNICATE

- Dynamic content (pull anything from your website to your app)
- Staff directories, campus directories, calendar events, and more
- Secure notifications (Send to all groups, or a specific group)
- District news and information

CONNECT

- Dynamic content (pull anything from your website to your app)
- Staff and departmental directories, campus listings, and more
- Secure notifications (Send to all groups, or a specific group)
- Weather and emergency alerts

ENGAGE

- Agendas and Minutes archive
- File and form download center
- Form submission and tracking for incidents and inquiries

CONNECTION BUILDS COMMUNITY
COME TOGETHER with ezMobile™.

Download the ezMobile™ app on iOS or Android today to explore the possibilities.
